**Mail Stop Petition**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, Virginia 22313-1450

Sir:

This is in response to the Decision Refusing Status Under 37 C.F.R. §1.47(a) ("Decision") mailed on April 2, 2004. This response is timely filed within the two month shortened statutory period set by the Petitions' Branch for the response, and no extension of time fees are due. Attached herewith are (1) a copy of the cover letter transmitting the specification, including claims and drawings to the non-signing inventor; (2) Declaration of Suman Mirmira; (3) Declaration of C. Fong; and (4) copies of the Federal Express packages in which the application and other enclosures were sent to the non-signing inventor and in which the undeliverable material was returned..

In the Decision, the PTO states that "petitioners have not provided proof that the non-signing inventor was ever sent or given a copy of *this* application as filed." In accordance with the PTO's suggestion, petitioners attach, as proof that the non-signing inventor was sent a copy of this application, (a) a copy of the cover letter transmitting the specification, including claims and drawings, a Combined Declaration for Patent Application and Power of Attorney and an Assignment and (b) copies of the two Federal Express packages, including the receipts, in which the letter and listed enclosures were sent to the non-signing inventor and in which the undeliverable material was returned..

As stated in the Declaration of Suman Mirmira, several efforts were made to ascertain the correct address of the non-signing inventor. The patent application (including specification, claims and drawings); a Combined Declaration for Patent Application and Power of Attorney; and an Assignment were then sent to him, via Federal Express, with instructions and a request that he sign the Combined Declaration for Patent Application and Power of Attorney as well as the Assignment as indicated. Two attempts were made to send the package to the non-signing inventor on April 15, 2004, and April 20, 2004. Both attempts were unsuccessful and the packages were returned by Federal Express for failure to deliver because the recipient had either "moved and left no forwarding address," or because "recipient's address was incorrect and/or incomplete and [Federal Express was] unable to obtain the correct address." See the "Attention Customer" stickers on the attached copies of the FedEx packages.

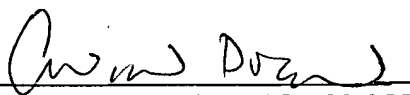

Further, the searches conducted to obtain the current address for the non-signing inventor revealed a phone number for the non-signing inventor. The number was called in an attempt to reach the non-signing inventor telephonically, but that also failed as the number was "no longer in service." See Declaration of Suman Mirmira.

Accordingly, Applicants submit that Applicants have made a diligent effort to reach the non-signing inventor and provide him with a copy of the application, and that he cannot be reached or located despite this effort. Applicants therefore request that the PTO to reconsider and grant the status under 37 CFR § 1.47(a).

Applicants believe that because the petition fee of \$130.00 was paid with the previous (denied) petition, no fee is due with this petition. However, the Commissioner is authorized to charge any fees, including petition fees and any fees for extension of time, or credit any overpayment to Deposit Account No. 08-1641 (referencing Docket No. 39766-0100 P1).

Respectfully submitted,

Date: May 28, 2004

**DECLARATION OF SUMAN MIRMIRA**

**Mail Stop Petition**

Commissioner for Patents

P.O. Box 1450

Alexandria, Virginia 22313-1450

Sir:

I, SUMAN MIRMIRA, do declare and state as follows:

1. I am an associate at the law firm of Heller Ehrman White and McAuliffe LLP and that the portfolio of cases that I am responsible for includes the above-identified application.
2. On April 15, 2004, after receiving the Decision Refusing Status Under 37 CFR § 1.47(a), I reviewed the file of the above-identified application and obtained the address of Mr. Daniel Tumas, the non-signing inventor, from the "Statement of Facts in Support of 37 CFR 1.47(a) Petition" originally filed with Application No. 10/265,542 and subsequently with the above-identified application. I obtained an address for Mr. Tumas in Orinda, California.
3. I then called Ms. P. Tobin at Genentech Inc. to enquire if the address in the file was correct or, if she had an updated address for Mr. Tumas. I was told that the address I had (from the file) was the latest-known address for Mr. Tumas.
4. I further searched the Internet at "http://people.yahoo.com/" and "www.whitepages.com" for "tumas." In "http://people.yahoo.com/," a search for "tumas" in Orinda, California, produced 2 results, one for Dan and the other for Margaret, both residing at the same address. A search in the "entire USA" database produced only one Dan Tumas, residing in Orinda, CA. In

“www.whitepages.com” the search in Orinda, California, produced 2 results (Dan and Margaret) and a search without specifying city or state produced 87 results, again, with only one Dan Tumas, residing in Orinda, California.

5. I also obtained a telephone number for Mr. Tumas from the above searches. The number listed was (925) 376-3935. This was identical to the telephone number listed in the “Statement of Facts in Support of 37 CRF 1.47(a) Petition” originally filed with Application No. 10/265,542.

6. I called the listed number, but could not reach any person. Instead, I received a recorded message that said that I had reached “a number that has been disconnected or is no longer in service.”

7. On the same day, *i.e.*, April 15, 2004, I prepared a letter to Mr. Tumas giving him instructions regarding the contents of the patent application and his duties as an inventor and requested that if the application was accurate and complete, then he should sign the Declaration and Assignment. Along with the letter, I enclosed the following: (a) a copy of the above-identified patent application as filed (including specification, claims and drawings); (b) a Combined Declaration for Patent Application and Power of Attorney; and (c) an Assignment.

8. I signed the letter and instructed my assistant, Ms. C. Fong, to send the package to Mr. Tumas to his Orinda, California, address via Federal Express (standard overnight delivery).

9. On April 20, 2004, I requested Ms. C. Fong to contact Federal Express and check if the package had been signed for and accepted by Mr. Tumas. At that time, I was told that the package had been sent without a request for a signed release.

10. I then asked Ms. C. Fong to make a copy of my letter and enclosures and re-send the packet to Mr. Tumas at his Orinda, California, address via Federal Express (standard overnight delivery), this time requiring a signed release of the package.

11. On April 22, 2004, Ms. Fong informed me that she had received a call from a Federal Express employee who informed Ms. Fong that the package could not be delivered to Mr. Tumas as he did not reside at the address on the package. Ms. Fong asked me if we could provide the Federal Express employee with an updated address for Mr. Tumas, and I told her that I had none.

She relayed this information to the Federal Express employee who then wanted to know if both packages, the one mailed on April 15, 2004, and the one mailed on April 20, 2004, should be returned. I said, yes, and both packages were returned to us.

12. I hereby declare that all statements made in this Declaration of my own knowledge are true and that all statements made on information and belief are believed to be true; and further, that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this verified statement is directed.

Respectfully submitted,

---

**Mail Stop Petition**

Commissioner for Patents

P.O. Box 1450

Alexandria, Virginia 22313-1450

Sir:

I, C. FONG, do declare and state as follows:

1. I am a patent assistant at the law firm of Heller Ehrman White and McAuliffe LLP.
2. On April 15, 2004, I sent Mr. Tumas a package containing the following: (a) a letter prepared and signed by Ms. Suman Mirmira; (b) a copy of the 39766-0100 P1 patent application as filed (including specification, claims and drawings); (c) a Combined Declaration for Patent Application and Power of Attorney with a tab indicating the spot where Mr. Tumas was to sign; and (d) an Assignment with a tab indicating the spot where Mr. Tumas was to sign. The package was sent via Federal Express (standard overnight delivery). I prepared the Federal Express label myself, inserted the above-identified documents into the envelope, sealed the envelope and left it for our firm's mail services to pick and deliver to Federal Express.
3. On April 20, 2004, Ms. Suman Mirmira requested me to contact Federal Express to check if the package had been signed for and accepted by Mr. Tumas. At that time, I informed her that the package had not been sent with a request for a signed release.
4. At this time, on Ms. Suman Mirmira's request, I made a copy of the letter and all the enclosures (as described in paragraph 2) and re-sent the package to Mr. Tumas at his Orinda,

California, address via Federal Express (standard overnight delivery). This time I added the requirement that the package be released only with a signature of acceptance.

5. On April 22, 2004, I received a call from Jo, a Federal Express employee from the Pacheco, California, Office. Jo informed me that the package could not be delivered to Mr. Tumas as he did not reside there, and asked me for an updated address for Mr. Tumas. I checked with Ms. Suman Mirmira and told Jo that we had none. Jo then wanted to know if she should return both packages, the one mailed on April 15, 2004, and the one mailed on April 20, 2004, to us and I said, yes. Both packages were returned to us; one on Friday, April 23, 2004 and the other on Monday, April 26, 2004.

6. I hereby declare that all statements made in this Declaration of my own knowledge are true and that all statements made on information and belief are believed to be true; and further, that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this verified statement is directed.

Respectfully submitted,

**Re: U.S. Patent Application Serial No. 10/633,008**  
**Filed: July 31, 2003**  
**Title: *USE OF A33 ANTIGENS AND JAM-IT***  
**Inventors: Ashkenazi, et al.**  
**Genentech Reference: P1216P1**  
**Our Reference: 39766-0100 P1**

Dear Mr. Tumas:

Enclosed is the above-identified patent application as filed (including specification, claims and drawings), a Combined Declaration for Patent Application and Power of Attorney and an Assignment. Please sign and date the documents as indicated.

United States patent laws require that the application describe the invention, and the method for making and using it, completely and accurately such that a person who has an ordinary amount of skill in the technology pertaining to this invention could, after reviewing the application, make and use the invention. Additionally, the patent laws require that the application set forth the preferred implementation or "best mode" of carrying out the invention. If the application would not permit such persons of ordinary skill to make and use the invention, or if you, at this time, know of a better way to make or use your invention than that which is described in the enclosed application, please let us know immediately.

Please read carefully the enclosed patent application in connection with the above requirements. If there is anything in the application that appears to be incomplete or inaccurate, or that may be misleading, then contact us at once.

If the application is accurate and complete in its present form, please read the Declaration which is attached to the back of the application. You must carefully consider certain matters before signing the Declaration.

The Declaration states that there is a duty to disclose information regarding earlier developments and the like which may be material to the examination of the application. If you know of such information now or learn of any while the application is pending in the U.S. Patent and Trademark Office, please advise us promptly.

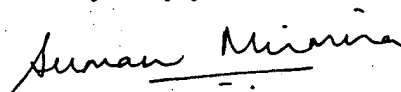

Further, the Declaration states that you are an inventor of the subject matter which is claimed. If you have reason to believe that you may not be an inventor, or if you believe any inventors may have been omitted, please contact us immediately.

Finally, if there is anything in the Declaration or in these instructions which you do not understand, please let us know so that we can clarify the matter.

If the application is accurate and complete in its present form, please sign and date the enclosed Declaration in blue ink where indicated. Please note that the assignment must be notarized. Also, sign both the Declaration and the Assignment on the same day, or sign the Assignment after signing the Declaration.

Please do not hesitate to contact us if you have any questions.

Very truly yours,

Suman Mirmira
